Typical duties include the installation, maintenance and repair of pipelines and appurtenances, light construction in a variety of trades, heavy equipment operation, facility maintenance, pipeline location services and inspection of outside service contractors and construction activities.

ESSENTIAL DUTIES AND RESPONSIBILITIES

To perform this job successfully, an individual must be able to perform each essential duty satisfactory. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential duties and responsibilities.

- Performs skilled and highly skilled work in the repair and maintenance of pipelines and appurtenances including main line isolation valves, vacuum & air release valves, blow-off valves, pump wells and access manholes throughout the system.
- Repairs manholes, vault lids and valve stacks throughout the system.
- Performs construction activities such as the installation and repair of concrete pads, masonry walls, erosion control projects and roadways.
- Provides location services and inspects public improvement projects and development and utility installations that conflict with District facilities.
- Skillfully operates vehicles, hand or power tools, pumps, portable generators, blowers, drilling, and cutting machines to perform installation, modification, maintenance and repair of water distribution systems and integral components.
- Cleans and paints vaults, pipes, cabinets, pumps, motors, and buildings throughout the system.

CALLEGUAS MWD
Senior Maintenance Worker

- Works effectively with skilled and unskilled people to jointly perform tasks requiring expertise in other disciplines.
- Performs preventative maintenance on a wide variety of system components; such as, pumps, motors, and control valves.
- Performs traffic control and assists other departments as necessary.
- Assists in the job training for Maintenance Workers 1 & 2 in the use of equipment and in the location, maintenance, installation and repair of all facilities and appurtenant structures of the District.
- Be responsible for their own safety and the safety of coworkers by recognizing hazards and potentially hazardous situations, and having an awareness of safe practices on the job site.
- Performs other work, as assigned

SUPERVISOR RESPONSIBILITIES

This position does not include supervisory responsibilities.

QUALIFICATIONS

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and Experience

A high school diploma or general education degree (GED) or a minimum of four years related experience and/or training or equivalent combination of education and experience is required. Must have one years experience with a water district and demonstrate thorough knowledge of a district's water distribution system and the operational and maintenance requirements of the system. Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals. Should have the ability to compute rate, ratio, and percent and to draw and interpret bar graphs.

Skills and Abilities

Ability to read and interpret documents such as safety rules, operating and maintenance instructions, procedure manuals and blue prints. Senior Maintenance Workers should be able to write routine reports and internal memoranda, plus be able to communicate effectively with employees and customers. Must have knowledge of safety requirements for working around heavy and power equipment, construction sites, high voltages, and in confined spaces. The position requires the individual to apply common sense understanding in carrying out instructions furnished in written, oral, or diagram form and be able to solve day-to-day problems, which may occur in stressful environments. Must have a thorough knowledge of the District distribution system, the location of all system components, and be able to direct individuals to these locations. In addition, the worker must have a working knowledge of

water systems, components and hydraulics and have the ability to communicate this information to maintenance personnel through on the job training.

EQUIPMENT TO BE USED

Must be highly skilled in the operation of, forklifts, backhoes, skip-loaders, welders, drilling and cutting machines, compressors, jackhammers, a wide range of hand and power tools, and other equipment to perform installation, modification, maintenance and repair of water distribution systems and their integral components. Must also be able to use radio and telephones to communicate.

PHYSICAL DEMANDS

The physical demands described are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to stand; walk; use hands to finger, handle, or feel; reach with hands and arms; and talk or hear. The employee frequently is required to climb stairs and ladders or balance and is occasionally required to sit; stoop, kneel, crouch, or crawl; and taste or smell.
