WHEREAS, the Board of Directors (Board) of Calleguas Municipal Water District (District) adopted an Urban Water Management Plan (Plan) in 2010 in accordance with the requirements of the California Urban Water Management Planning Act (Water Code Sections 10610 et seq; the Act); and

WHEREAS, the Plan includes a Water Shortage Contingency Plan and Water Shortage Stages of Action that describe measures the District may take to manage demand and, if necessary, allocate water in response to reductions in available water supplies; and

WHEREAS, on April 15, 2015, in Resolution No. 1865 the Board declared a Stage 4 Shortage and implemented a water supply allocation program consistent with a Water Supply Allocation Plan (WSAP) adopted by the Metropolitan Water District of Southern California (Metropolitan); and

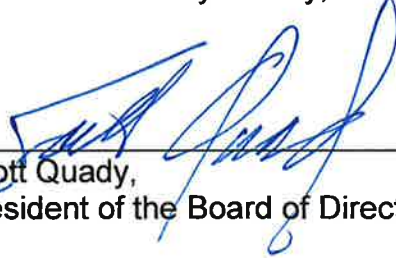

WHEREAS, imported water supply conditions have improved considerably in Water Year 2016 given increased precipitation, runoff, and reservoir levels; and

WHEREAS, on May 10, 2016, Metropolitan declared a Water Supply Condition 2 - Water Supply Alert calling for member agencies to implement extraordinary conservation to mitigate use of storage reserves and suspended implementation of its WSAP, effective immediately.

NOW, THEREFORE, IT IS HEREBY RESOLVED that the Board of Directors of Calleguas Municipal Water District, under its adopted Water Shortage Contingency Plan:
