

Water Conservation Tracking Report

Last Revised: 09/16/2022

PROGRESS ON REDUCING IMPORTED WATER USE

The Emergency Water Conservation Program (EWCP) period is June 1, 2022 – December 31, 2022. Metropolitan Water District of Southern California (Metropolitan) established an agency-specific volumetric delivery limit for Calleguas. Calleguas subsequently calculated volumetric limits for its water purveyors. Volumetric limits are based on an equivalent share of Human Health and Safety (HH&S) water available from DWR (roughly based on 55 gallons per person per day offset by a certain volume of local supplies) plus any additional water Metropolitan can provide from the SWP system, allocated to each agency based on proportionate population. The following table exhibits weekly volumetric targets representing each agency’s proportional share of the imported water available. If at a future date the individual agency, or Metropolitan as a whole, exercises the option to move to volumetric targets, the volumetric amounts would be the basis for how penalties would be assessed following Metropolitan’s Emergency Water Conservation Handbook.

Purveyor	Population (CY 2022)	09/01/22 – 09/15/22 Period Target (AF)	09/01/22 – 09/15/22 Period Target (GPCD)	Period Ending 09/15/22 (AF)	Period Ending 09/15/22 (GPCD)	% Over / Under
